

## **Best Practices I**

### **1. Title of the Practice:**

Promotion of universal values among students.

### **2. Objectives of the practice:**

In today's world, where majority of the people are pursuing only self interests relentlessly, the institution recognises the need to inculcate universal values like promotion of truth, selflessness, righteousness etc. The of our college is working with this goal.

### **3. Context:**

The inculcates among the students.

a) harmonious development of body, mind and soul and promotion of universal values.

b) Cultivate inner calmness-a way to peace

c) to help others

d) to preach and practice truthfulness.

e) to deal with academic and emotional stress by tapping their inner sources of strength.

f) to develop a positive attitude

### **Evidence of Success:**

Students are increasingly taking interest in this practice. They are regularly.

## **Best Practices II**

### **Title of the Practice:**

Plantation Programme

### **Objectives of the Practice**

It has been observed by the people that nature has been changing itself very tremendously as we are responsible for this change because of building and constructing more and more cities and town. So, the nature has unbalanced and disturbed that's why the combination of oxygen has ruined. Therefore, now we have to maintain this balance by

- To ensure more plantation of different fruits and other useful plants & trees.
- Plantation Programme can become more popular. So, it is the duty of ours to promote more and more students to come forward.
- To enhance the values of plants & environment among the students.

### **The Context**

The very noble objective of "World Environment day is to save & protect to the environment by plantation work" with under given points:-

- To increase up the level of the students thinking regarding plantation work.
- To ensure the sincerity of the students regarding the values of trees & plants.
- To inculcate the programme of plantation can change the heart & hobbies of students to produce more and more oxygen.

- For the maintenance the cycle of nature for upgradation of the environment.

### **The Practice**

It is very important to plant more and more trees, herbs and climbers because these are the carriers of rain and clouds. Only the nature has capacity to turn up the balance of nature to produce more and more oxygen, but it is only possible when our surroundings are full of trees and plants. Such type of programme is only possible when our new generation become more & more sincere and active towards plantation programmes. If our programme of plantation makes the points of success, it is sure and certain that our nature will be in balance and the life of the people can be happy & prosperous. So, we should plant more & more trees and protect them for the future of new generations.

### **Evidence of Success**

Our efforts of plantation work provoke the heart of the students and inspired them to go quickly on the path of plantation for the balance of the nature & upgradation of environment. It is the result of the programme that more than 80% student participated in the programme of the plantation started by college/administration.

As soon as possible close to 200 plants has been planted by the student in college campus. Now we are hoping that after this monsoon, these planted trees will provide us feelings of true nature & beauty of the nature.
